# U. S. PLATE VARIETIES

## SHIFT HUNTER LETTER

12 58  
Penna.  
Avenue  
TYRONE  
Penna.

COMPILED FROM THE RECORDS  
of  
C. W. BEDFORD

August 1938

Dear Shift Hunter:

As requested by some of the Shift Hunters we illustrate a few of the varieties prevalent on the older issues of our postage stamps.

Notice the similarity of the variety of Scott #139 in the letters "TEN" and that of Scott #161 illustrated in the July 1937 Shift Hunter Letter.

In Mr. Bedford's 1¢ Bank Note Album we find Plate Varieties marked "American", "Continental" and "Re-engraved". From time to time these will be published.

For those interested in Plate Varieties on our Revenue stamps we draw attention to a series of articles appearing in "Weekly Philatelic Gossip" under the heading "U.S. Revenue Varieties" from the C.W. Bedford Records."

Sincerely yours,

GEO. BLACK
